

Adopt a system that makes learning part of the grade.

Homework without
compromise.

Results without
compare.

MasteringPhysics™ is the only online physics homework system with research showing that it significantly improves student learning and accurately predicts student performance on finals. A wide variety of published papers based on NSF-sponsored research and independent tests illustrate the benefits of MasteringPhysics™ including:

MasteringPhysics™ coaches more than twice as many students through to complete tutorial problems ($67 \pm 3\%$) than regular textbook problems ($33 \pm 5\%$) in real time. [Learning and problem-solving transfer between physics problems using web-based homework: Amir Razif Wismakulosoorya & David E. Pritchard EdMedia-WORLD Conference on Educational Multimedia, Vol. 2005, pp. 2976-2983.]

MasteringPhysics™ coaches more students through more problems
