We asked nurse educators across the U.S. about the status of concept-based learning in their programs. More than 700 nurse educators responded and here is what we found:

**36%** of instructors are teaching in a concept-based program

**48%** of programs are considering a concept-based curriculum

**66%** of concept-based programs have been in place for two or more years

When faculty will likely begin a concept-based curriculum:

- Within 6-12 months: 16%
- Within 12-24 months: 22%
- Within 24-36 months: 24%
- Later than 36 months: 7%
- Don’t Know: 31%

Comfort level about the impact of a concept-based curriculum:

<table>

Primary programs in which instructors are teaching:

- ADN/ASN Accelerated: 6%
- ADN/ASN Generic: 41%
- BSN Accelerated: 5%
- BSN Generic: 35%
- LPN: 2%
- LPN to RN (Transition): 2%
- MSN: 4%
- RN to BSN: 5%

Amount of time it took for program to redesign course:

- <1 YEAR: 31%
- 1-2 YEARS: 47%
- >2 YEARS: 22%
